Embarking on a school trip is a great learning adventure for many students and educators have a heavy responsibility to ensure that the trip is well planned and the learning opportunities optimized. We have a team of highly experienced and well qualified professionals who know how to interact with students and make them discover new unique learning experiences.

Canopus Holidays is a name that's been synonymous with the tourism industry for the better part of the past two decades. Carrying forward the family legacy, set by late Mrs. Neeta Pathak in the year 1987, with immense dedication, along with living his passion of being a doctor is one of the few things that define Dr. Kunal Pathak. An avid excursionist and a diligent person at work, he has made humongous strides in this field. **Dr. Kunal earned MDFACS, CPPD, BACP & CMBB degrees respectively.** Inheriting his mother's vision of creating affordable and luxurious travel packages for all the age groups, he has worked towards providing them with the best experiences of their lives. **"More than the Learning, it is the Experience which makes it Memorable"** is what he believes in.

Team Canopus has spread its wings in three domains i.e. Holidays, International and Hospitality. Being the only travel company holding presence in **71 cities, 15 countries and 5 continents for educational excursions**, Team Canopus holds the thought that sky is the limit. Advancing from organising educational excursions in India, Canopus Holidays now offers programs to the students from different parts of the world, with professional tie-up with many government agencies like the **NASA, Kennedy Space Center, Space Center Houston, US Space and Rocket Center, Canadian Space Agency, Indian Space Research Organization, European Space Agency, Turkey Space Camp, Russian Federal Space Agency, Japan Aerospace Exploration Agency, China National Space Administration, Albert Schweitzer Leadership for Life foundation** and many other organizations from Australia, Africa, Europe, USA, UK, and Singapore to offer international programs to the students from different parts of the World.

Talking about their latest project, **Canopus Holidays has set the seal in getting 497 students from different parts of the world back to their country in the Corona Virus Pandemic. As per the 2019 stats, in total 12936 students have travelled across the globe with Team Canopus.** In January, they successfully accomplished their biggest batch to Europe with 372 students. They have also completed 26 trips to NASA the United States of America, with 2293 students in the same year. Our tours have been assembled with the educator and student in mind and we are confident that our tours will provide the most memorable learning experiences for your school - a learning that is all encompassing and fun.

Along with taking various steps towards their mission, **Team Canopus never forgot the needs of its customers. Sentiments played a major role not only at the planning stage but also at the execution one.** Every student's personal needs and demands have always been their priority. Spontaneity is the goal, is what they believe in. Hence, customer satisfaction is the key to their success.

Knowing that Canopus wouldn't attain these heights without the efforts of their workforce, employee satisfaction is as much important as well. **The strong workforce consisting of 73 members across the globe, is the backbone of Canopus Holidays and given as much commendation as their customers.** Their ideas, needs, creativity, etc. has been given importance, which sets them apart.

The enterprise was established in 1987 by Late Mrs. Neeta Pathak as Yash Tours and Travels & Yash Group of Caterers, which was later rebranded as Canopus Holidays by Her heir. She believed that nobody in this world must be restricted from attaining the pleasure of exploring because of scarce financial resources as well as knowledge.

As per Dr. Kunal, she believed in the phrase, **"Life is a journey, which continues beyond this universe" and hence helping others was her main goal.** Yash Tours and Travels was rebranded to Canopus Holidays in 2006. Initially, the enterprise as Yash Tours and Travels had limited its scope to Indian boundaries, but Team Canopus believed that no boundary, no religion, and for a fact no factor can stop their dream of global success. Hence, a new program is launched every week by Team Canopus.

As a part of their Corporate Social Responsibility, the company has started its school in the natives in the memory of Late Mrs. Neeta Pathak and also does charity in various organisations or groups which are in need. **Dr. Kunal once humorously mentioned that his citizenship is that of a Worldian, with humanity as his caste.**

Team Canopus Has 492 idiosyncratic educational excursions based on Institutional Curriculums worldwide, one of the greatest accomplishments for Canopus Holidays and a motivation to work harder towards attaining higher honours in the coming future. But the honour of receiving an international award while representing India is something that cannot be expressed into words. Hence with this, **Team Canopus looks forward to reaching out to the maximum number of people possible and delivering great experiences, cause it's the Experience we live for.**

We invite your school to join us on our tours where learning becomes truly alive and the experience truly enriching.

Thanking you,
Your's Sincerely,

Dr. Kunal Pathak
Managing Director
